

CANTON COMMUNITY EYE CARE PROGRAM

Do you SEE how important Eye Care is??

Of the estimated 61 million US adults at high risk for vision loss, only half visited an eye doctor in the past 12 months

- Vision can affect a Student’s ability to thrive in the classroom
- Changes in Vision can be a symptom of other diseases
- Vision Loss can affect people of all Ages

Early treatment is critically important to prevent some common eye diseases from causing permanent vision loss or blindness

- Cataracts is the leading cause of vision loss in the United States
- Diabetic retinopathy is the leading cause of blindness in American adults
- Glaucoma (a group of diseases that damages the optic nerve)
- Age-related macular degeneration (gradual breakdown of light-sensitive tissue in the eye)
- People with diabetes should have a dilated eye exam every year

Regular eye care can have a life-changing impact on preserving the vision of millions of people

Outstanding bills getting in the way of making a new appointment?

Don’t have Vision Coverage?

Don’t know how you’ll afford new glasses?

Co-Pay Unaffordable?
